Power Mobile Bluetooth Quick Fixes
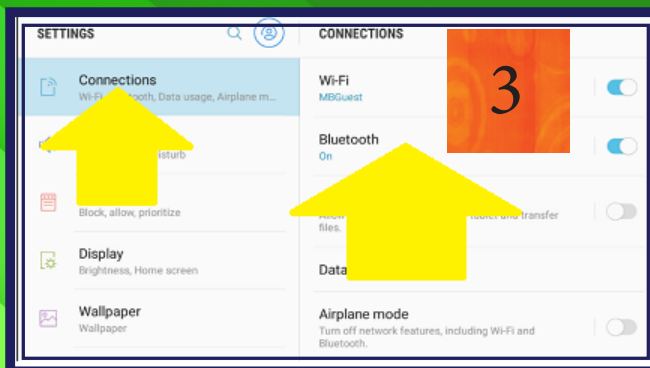

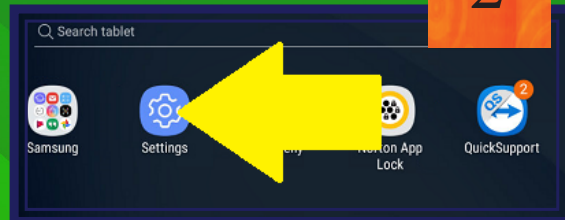

McAneny BROTHERS, INC.

"Thumb Scanner not Scanning"
### -Checking Bluetooth Connection

1) **Start on the main screen on the tablet & click Apps**

2) **On the Apps screen, click on settings**
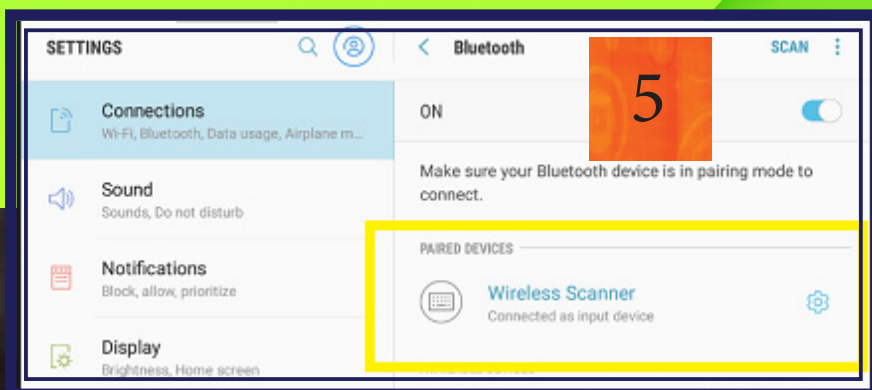

3) **Click Connections and then click Bluetooth**

4) **Under Bluetooth Connections, make sure your wireless scanner is paired.**

5) **Pick up your Wireless Scanner and click the blue button turning it on.**

• **If it does not auto connect, click on Wireless Scanner under Bluetooth connections**

• **If it states "Connected as input device" under the Wireless Scanner Label, you have done the process correctly.**

Power Mobile Bluetooth Quick Fixes
