4. FIRST AID MEASURES				

Eyes:	Immediately flush eyes gently with plenty of water for at least 15 minutes while holding eyelids apart. If symptoms persist or there is visual difficulty, seek medical attention.
Skin Contact:	In case of contact, immediately wash contaminated area with plenty of water for at least 15 minutes. Seek medical attention if
	symptoms persist. Seek medical attention if symptoms persist. Wash clothing before reuse.
Ingestion:	Do not induce vomiting. Aspiration into the lungs can cause serious damage. Contact a physician, medical facility, or poison control
•	center immediately. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs.
Inhalation:	Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Continue your efforts until help
	arrives or the victim starts to breathe on his own. Do not leave victim alone. Seek immediate medical attention. Keep the victim warm
	and quiet.
NOTES TO PH	YSICIAN:
This material is	an aspiration hazard. Potential danger from aspiration must be weighed against possible oral toxicity when deciding whether to induce

This material is an aspiration hazard. Potential danger from aspiration must be weighed against possible oral toxicity when deciding whether to induce vomiting. Preexisting disorders of the following organs (or organ systems) may be aggravated by exposure to this material: skin; lung (for example, asthma-like conditions); liver; kidney; blood forming system;

5. FIRE FIGHTING MEASURES Fire and/or Explosion Hazards: Product is water based material, containing minor amounts of flammable ingredients. This product contains a component(s) that is considered a flammable liquid, which has vapors that are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, or other flames and ignition sources at locations distant from the material's handling point. Use alcohol foam, water fog, dry chemical, or CO2. Although this product has a flash point below 200 F, it is an Fire Fighting Instructions: aqueous solution and does not sustain combustion. Water is generally not effective and may spread fire; however, water spray may be used from a safe distance to cool closed containers and protect surrounding area. Flash Point: 66°F PMCC 19°C PMCC Lower Flammability Limit: 2.6%Upper Flammability Limit: 12.8 % Autoignition Temperature: 869 DEG F

6. ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:

Remove all sources of ignition. Wear appropriate personal protective equipment (PPE). Stop or reduce discharge if it can be done safely. Ventilate contaminated area. Avoid run-off into storm sewers and ditches which may lead to natural waterways. If runoff occurs, notify authorities as required. Clean up with absorbent material. Place absorbent materials into container and close it tightly. Dispose of container properly.

7. HANDLING AND STORAGE		
Handling:	Do not use near ignition sources. Use with adequate ventilation. If ventilation is not sufficient, wear proper respiratory equipment. Avoid prolonged or repeated contact with skin. Avoid prolonged or repeated breathing of vapor. Do not store containers in excessive heat or direct sunlight. Protect container against physical damage. Do not use near ignition sources. Use with adequate ventilation. Protect container against physical damage. Normal precautions common to safe manufacturing practice should be followed in handling and storage. Avoid prolonged or repeated contact with skin. Avoid prolonged or repeated breathing of vapor.	
Storage:	Keep container tightly closed when not in use. Store in a cool, dry, well ventilated area away from all sources of ignition. Normal precautions common to safe manufacturing practice should be followed in handling and storage. Empty container may contain residues which are hazardous.	

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls:Ventilation should be adequate to prevent exposures above the limits indicated in "Section 2" of this MSDS (from known,
suspected or apparent adverse effects). Local exhaust should be used in areas where exposure limits may be exceeded.Eye Protection:Wear chemically resistant safety glasses with side shields when handling this product. Wear additional eye protection such
as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid
or airborne material. Do not wear contact lenses. Have an eye wash station available.Skin Protection:The use of chemically resistant gloves is recommended if there is any possibility of prolonged or repeated liquid contact
with skin.Respiratory Protection:No respiratory protection required under normal conditions of use. A supplied air respirator should be used if ventilation is
not sufficient to maintain exposure limits. Use NIOSH approved respirator where there is likelihood of inhalation of the
product mist, spray or aerosol.

9. PHYSICAL AND CHEMICAL PROPERTIES

D 11 11 11	V D	5 : 13 115
Bulk liquid	Vapor Density:	[air = 1] 1.15
Clear Colorless	Evaporation Rate:	0.5-2 (n-Butyl acetate = 1)
Mild Alcohol	Solubility in Water:	Complete; 100%
0.98 (H2O=1)	Boiling Point:	212°F

	Mild Alcohol 0.98 (H2O=1)	Clear ColorlessEvaporation Rate:Mild AlcoholSolubility in Water:0.98 (H2O=1)Boiling Point:

10. STABILITY AND REACTIVITY

Chemical Stability:

Conditions to Avoid:

Decomposition Products:

Stable.
Avoid contact with: Ignition sources such as open flames, sparks, static discharges or glowing metal surfaces. Acids.
Strong oxidizing agents. Acetaldehyde. Chlorine. Ethylene oxide. Isocyanates. Strong alkalies.
Burning can produce the following combustion products: Carbon dioxide and carbon monoxide.

11. DISPOSAL CONSIDERATIONS

Disposal : Dispose according to Federal, State and local regulations.

12. TRANSPORTATION INFORMATION

Agency	Proper Shipping name	UN Number	Hazard Class	Packing Group
DOT	Consumer commodity	Not applicable	ORM-D	Not applicable
IATA	Flammable Liquids, n.o.s. (Contains	UN1993	3	II
	Isopropanol)			

13. REGULATORY INFORMATION

 Warning: This product contains the following chemicals that are subject to reporting requirements for the following regulatory bodies listed below:

 COMPONENT
 CAS # % BY WEIGHT

 No components listed in this section.
 SARA Section 313

Warning: This product may contain chemicals known to the State of California to cause cancer. See list below. No components listed in this section. Prop65

Warning: This product may contain chemicals known to the State of California to cause birth defects. See list below. No components listed in this section. Prop65 Birth Defects

All components of this product are listed on the TSCA inventory.

This information contained in this MSDS is believed to be accurate as of the version date, but is not warranted to be. Since the use of this information and the conditions of use of this product are not within the control of Stoner Inc, it is the user's obligation to determine the conditions of safe use.
